Washington, DC 20554

RE: 96-86 and 05-157

Dear Ms. Dortch:

Below is a summary of meetings related to the above referenced dockets.

Company: Pegasus Communications

FCC Attendees: Comm. Adelstein, Barry Ohlson (March 7); Fred Campbell (March 6); John Giusti (March 7); Andrew Long (March 7)

Company Attendees: Mark Pagon (March 7 meetings only), Cheryl Crate and Kathleen Wallman (all meetings)

Topics Discussed: (1) Pegasus' view that the Upper 700 MHz rebanding proposals that we presented with other licensees in our August 2005 White Paper urgently require resolution and should be framed in a NPRM at the earliest opportunity. (2) Pegasus' request that these rebanding proposals be included in the forthcoming NPRM based on NPSTC's February 6, 2006 filing in the above referenced dockets, or at the very least in a concurrently issued NPRM. (3) Pegasus' concern that if the NPSTC proposals and our Upper 700 MHz rebanding proposals are not considered together, resolution of the NPSTC proposal could prejudice issues that are important to fair consideration of our rebanding proposals and thus adversely affect the public's interest in efficient spectrum allocation and near-term deployment of broadband in Upper 700.

Very truly yours,

//signed//

Kathleen Wallman
